DETAILED ACTION

1. Receipt is acknowledged of Applicant's Prior Art Statement, filed February 9, 2004.
2. Receipt is acknowledged of Applicant's Foreign priority papers, filed November 19, 2004.

Election/Restrictions

3. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-28, drawn to an apparatus for splitting apart a substrate, classified in class 125, subclass 23.01.
 - II. Claims 29-41, drawn to a method for splitting apart a substrate, classified in class 225, subclass 1.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the process as claimed may be performed by another materially different apparatus, such as one utilizing fluid jets rather than moving jaws to perform the splitting step.

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Art Unit: 3723
